## SEASONAL VEGETABLES SUPPLIES

For opportunities to enter the Turkish market, it is recommended that exporters review reports in the relevant sectors produced by the USDA Foreign Agricultural Service (FAS) Office in Turkey, noted below under Web Resources. Turkey's young and growing population, as well as growing regional exports of flour, poultry, and processed food provide opportunities for U.S. exporters to provide inputs. All reports can be found on the FAS Global Agricultural Information Network search page. For opportunities to enter the Turkish market, it is recommended that exporters review reports in the relevant sectors produced by the USDA Foreign Agricultural Service (FAS) Office in Turkey,
